

SINCE 1910
JUB HOLLAND

Royal supplier
of colour

КАТАЛОГ 2021

JUB, the company

Our bulbs are colourful. We are the Royal supplier of colour. We are colourful, the fourth generation of a close-knit 110-year-old family business, JUB Holland.

We grow the most beautiful flower bulbs on the typical polder landscapes in the Netherlands. In cities we use JUB Landscape to design colourful verges, parks and roundabouts. In our special trial rooms we develop new varieties of tulips in collaboration with designers.

And the great thing is, since 2010, 100 years after our foundation, we can use the phrase: By Appointment to the Court of the Netherlands. A great honour. We are an innovative, award-winning international bulb company where 40 people are working every day with the best in nature. Unique tulips and other bulbs are grown, packed and exported by JUB Holland. Our bulbs are grown as sustainably as possible.

Nature is the basis of all our successes. We are grateful for what has been driving us for generations.

All about JUB

SINCE 1910

The knowledge and expertise that has been passed down through four generations, is the key to the success of our family business.

What began in 1910 as Jac. Uittenbogaard is now an internationally operating flower bulb company, under the name JUB Holland. Within our company, all facets of the profession are covered. This is how we distinguish ourselves.

GROWING, FORCING & BREEDING

More and more sustainable, PlanetProof bulbs

Growing bulbs on our own nursery

The great thing about JUB Holland is that we are one of the few companies in the bulb sector to do everything ourselves. We grow, we force, we breed, we trade. That also characterises our history. On 35 hectares of our own land, 35 tulip varieties and 15 daffodil varieties grow in the open air, all certified of course (MPS A and Planet-Proof).

Forcing tulips in our greenhouses

In our greenhouses, we force some four million tulips from January until May. With Polder Pride, a collaboration of six renowned tulip forcing companies, we bring our A1 quality cut tulips to auction.

Breeding new varieties / Remarkable

We love to pull our strengths with those of others. That's why we are part of Remarkable Tulips, a collective of seven flower bulb growers and exporters that works on the breeding and development of new tulip varieties. These bulbs are of the very best quality and have a high resistance to diseases. Breeding requires patience, but the result is more than worth it: the most stunning and most exclusive tulips.

LANDSCAPING

Creativity is our great strength

Greening up cities is an international trend, in which JUB Holland plays an active role (we can make a total concept). Indeed, you could even call us a trend-setter: in the 1980s we developed a planting machine which plants flower bulbs under grass at lightning speed.

Our customers are local authorities, companies, gardeners and landscape architects around the world.

WE CARE ABOUT THE ENVIRONMENT / PLANETPROOF

We are proud of our new environmental certificate **PlanetProof**, which has been developed in collaboration with various environmental organisations.

With this certificate, JUB takes a leading role within the sector. Our company is MPS-A and NL-Greenlabel certified, and was one of the first companies to have achieved the **PlanetProof** label. PlanetProof bulbs are grown by pioneering entrepreneurs using innovative techniques.

Purchasing **PlanetProof** flower bulbs encourages sustainable flower bulb production and protects the environment.

BIODIVERSITY For the bees and butterflies

Biodiversity is a priority for JUB. The habitats of bees and butterflies have become increasingly smaller. Many bulb flowers are attractive to butterflies and bees. They owe this to the large amount of nectar in their flowers. That's why it is important to plant bulbs attracting bees and butterflies. See our bees and butterflies logos on the various packages.

JUB TODAY

JUB Today shows through various social media channels, such as Facebook, Instagram and LinkedIn, the latest JUB bulb trends and facts.

Our activities, exhibitions, images and videos of bulb projects can be found, including useful tips and bulb ideas. You will stay up-to-date via JUB Today.

RETAIL From nursery to consumer

Romantic or minimalistic? Our packaging has a high reputation to maintain. We work with world renowned flower stylists who apply their talents to create distinctive designs. With this, we're always up to date with the very latest trends. The quality of the bulbs is our top priority, so it's logical that we have a label from Stichting Keurmerk (Quality Mark Foundation).
